EXPERIENCE

SOFTWARE ENGINEER - Mbrella

Oct 2022 - Present, Brussels

- Work AI-first with Claude Code, Cursor, and Codex to ship faster and take on full-stack work beyond my frontend scope
- Build and maintain a B2B SaaS platform for managing employee mobility, using React, TypeScript, Ant Design, and Styled Components
- Contribute to internal platforms and tooling supporting product initiatives
- Contribute to the cross-platform mobile app (iOS & Android) with React Native and Expo
- Collaborate with product and design to ship features end to end

FRONT-END DEVELOPER - Biogen

Oct 2021 - Sep 2022, Brussels

- Built features for BiogenLinc, a web platform for healthcare professionals to access events, training, and clinical studies
- Led the colour rebranding of the entire application
- Integrated Contentful CMS for content and Lokalise for localization across 7 markets (DE, UK, BR, JP, ES, FR, AU)
- Refactored legacy code and resolved bugs across the codebase
- Worked in Agile sprints using Jira and Confluence

FULLSTACK DEVELOPER - The Beyonders Studio

May 2021 - Jul 2021, Brussels

- Built a quiz game platform from scratch with the PERN stack (PostgreSQL, Express, React, Node.js)
- Integrated the Twitch REST API and parsed user answers from IRC chat in real time

WEB DEVELOPMENT BOOTCAMP - BeCode

Oct 2020 - May 2021, Brussels

- Full-stack JavaScript training: React, Node.js, Express, PostgreSQL, MongoDB
- Built individual and team projects under real deadlines using Agile practices

EARLIER EXPERIENCE

2018–2020 · Bankinsurance Advisor, BNP Paribas Fortis - portfolio management, credit and investment advice

2014–2018 · Manager Assistant, Carrefour Belgium - team management, scheduling, stock

2014 · Receptionist, Sandton Pillows Hotel - front desk and bar service
